 you may select multiples
 click on an entry to remove it.
 HIB 4 Add
 HIB #4

SUBMIT CANCEL

Select vaccine and enter a dose number to exclude from the report. Multiple vaccines and doses can be excluded.

2) Schools and Child Care providers can now complete several worksheets and forms for state reporting regarding the CHDP Annual School Report and Oral Health Report through the School Roster Report.

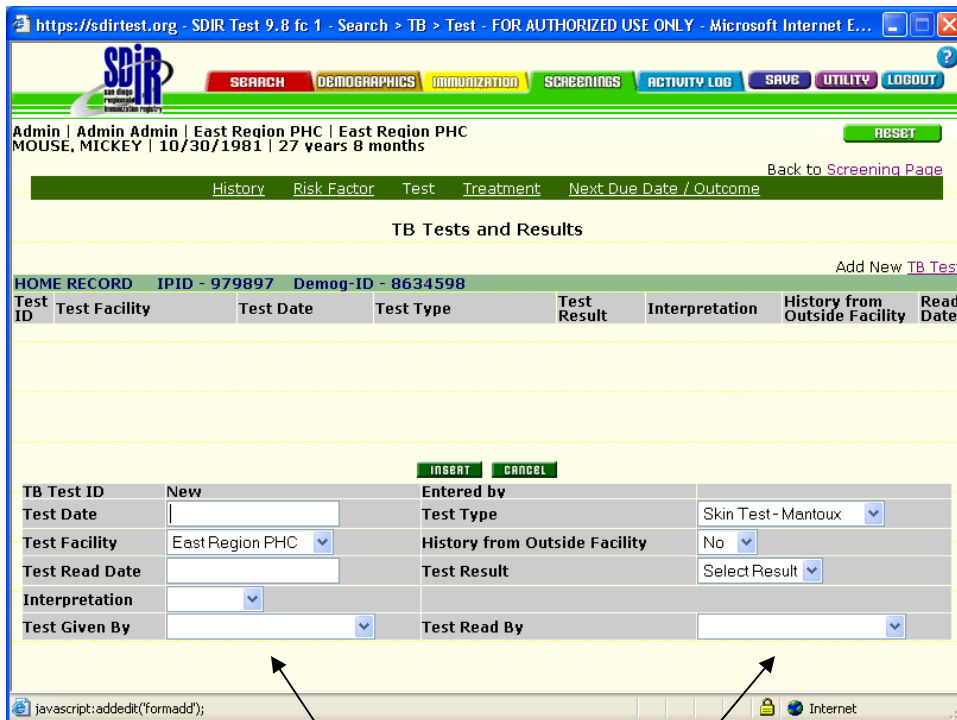

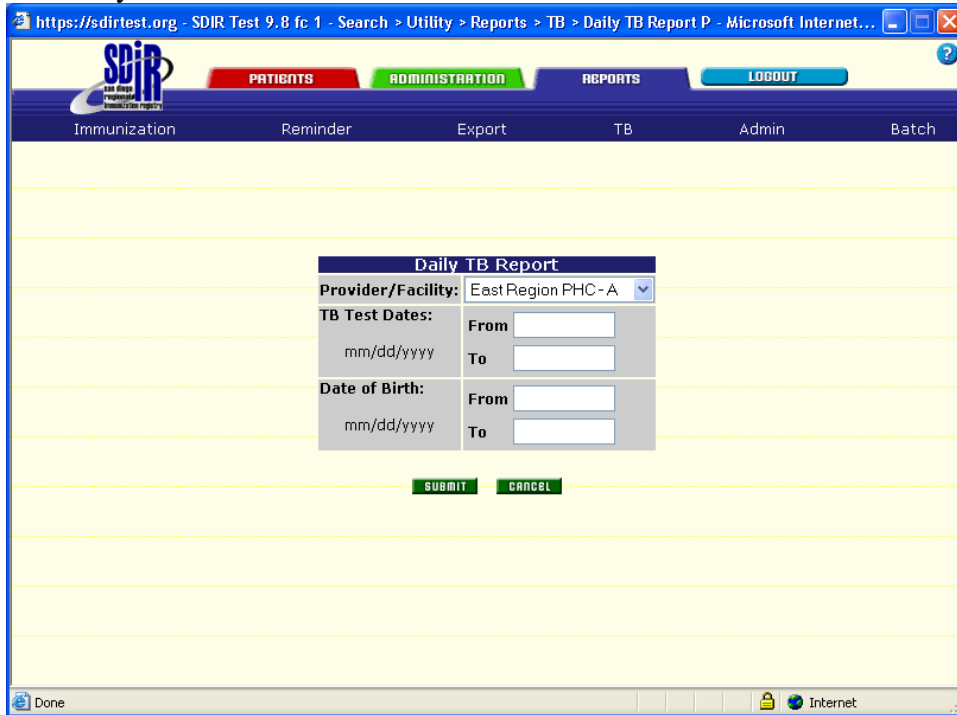

Report Type: CHDP Annual School Report School Year Start Date: 06/22/2009 Get Report

Roster List

Date	Roster Name	# of Students	Worksheets	Forms
06/22/2009	Madisa	0	Child Care Kindergarten	Child Care Form Kindergarten Summary delete
06/22/2009	SD Unified Roosevelt	0	Child Care Kindergarten	Child Care Form Kindergarten Summary delete

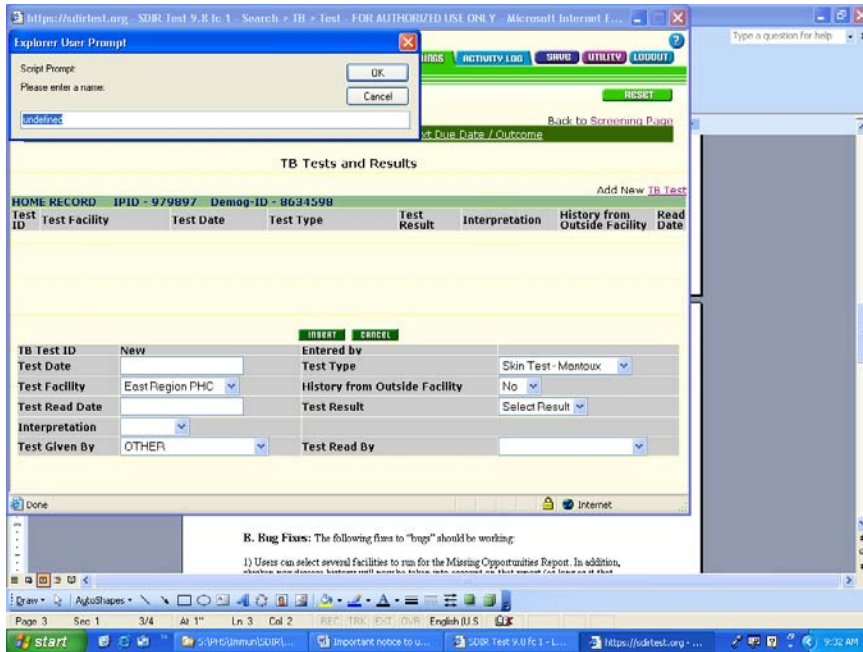

File Formats: New File Format Name

3) There is a new report under the TB Report section called the “Daily TB Report”. In order to produce a complete Daily TB Report, the two new fields were added:-- TB tests: “Given By” and “Read By.”

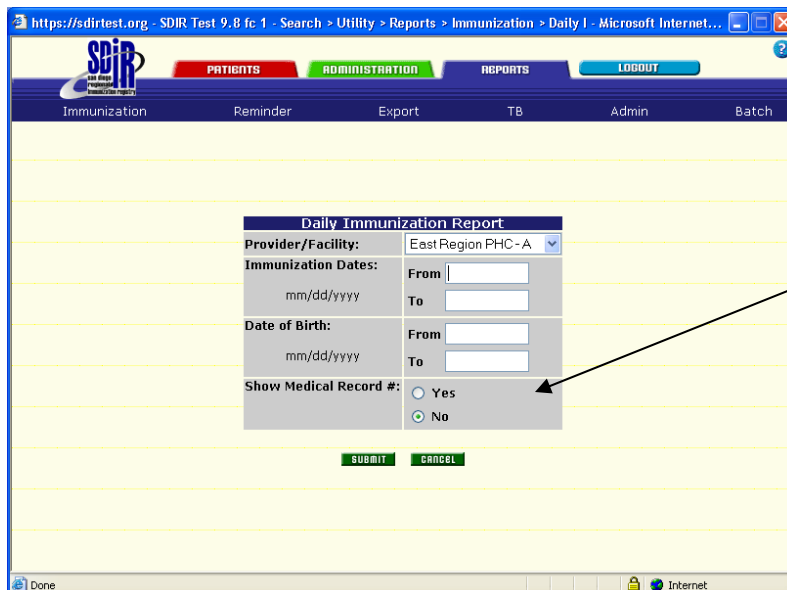

New fields added

Please note that if a staff name does not appear on the drop down list for “Test Given by” or Test Read by”, select “Other” and a box will appear to enter the new name. Follow the following format for entering names: Initial of first name, full last name, credentials (LVN, MA, RN, PHN, etc.). Click “OK” to add the new name to the drop down list.

B. Bug Fixes: The following fixes to “bugs” should be working:

- 1) Users can select several facilities to run for the Missing Opportunities Report. In addition, chicken pox disease history will now be taken into account on that report (as long as it that disease history field has been selected and saved.).
- 2) An option to include the medical record number to the output has been added to the Daily Immunization Report.

- 3) A Hepatitis B 2nd dose forecasting issue has been corrected.
- 4) The timely and untimely data entry in the Provider Profile report has been revised down from 30 days to **14 working days**.
5. On the VFC Order form, users can now enter a quantity of vaccine to under the VAQTA brand of Hepatitis A vaccine.

We appreciate your feedback on these improvements and fixes. Please call the Help Desk at (619) 692-5656 (M-F 8am-5pm) if you have any questions about the release or experience any problems with these changes, or any other part of the SDIR. To consult the user training manual, please go to: http://www.immunization-sd.org/sdir/support_user-manual.html . Please note that the most recent changes to the application (this version release) will not be immediately available in the user training manuals.

Thank you!
